Women! Women! Listen— You Cannot Fight, But You Can Help WIN THIS WAR-

The Dupont Ingineering Company— Government Munition Plant-

At Jacksonvill, Tennessee, Near Nashville,

Is calling for 100 able-bodied women between the ages of 18 to 35 years-must be physically strong and healthy-to work in the box factory making boxes for shipping powder. The work is light, but you must be able to do a day's work of eight hours. The pay is 35 cents an hour to start, and double time Sunday. You are required to live on the grounds, in special dormitory for girls, and can secure rooms, single or double, at \$1.50 and \$2.00 per week, meals 30 cents. You will have to stand physical examination by lady physician at the works. The dormitory is furnished with clothes closets, shower baths, hot and cold water and stationary washstands and single beds. Girls must wear company uniforms, which cost \$3.99.

Our boys, your son, brother or sweetheart, are over there, and need your help, and to do this we must have help to make boxes to ship powder and operate power machines now idle. There can be no peace now. Germany is playing for time. Keep them on the run, don't let them rest. We advance transportation from Memphis and deduct from first pay day, and will refund it after 60 days' service on the works. We will ship every Friday night in Pullman sleeping cars from the Union Station, Calhoun and Rayburn boulevard. Write, wire or phone at your expense. For further information, apply

A World's Championship Again Decided

Each year for twelve years the relative qualities of typewriters in speed and accuracy have been proved by contests held in New York City for an International Thousand Dollar Trophy Cup.

Champions have changed as the years have passed, but this cup has always been won by an operator using the Underwood Typewriter.

Once more, and for the Thirteenth time has this contest been held, and once more has the supremacy of the Underwood been established.

On October 21st, at the Exposition of Modern Office Equipment and Methods. in New York City George Hossfield, operating an Underwood at the rate of 143 perfect words a minute for one hour, defeating all contestants, became the World's Champion Typist for the ensuing year.

Writes Interesting Letter About Hospital, Memphis Boys and Americans.

Boys and Americans.

Maj. Frank D. Smythe, who is in charge of army base hospital 57, Memphis unit, at Paris, is of the opinion that, if things continue to go on the battle front as they have been going recently, it will not be long until the boche will realize that he has been defeated and that he must accept such terms as the ailies will grant him. He has written a letter to C. B. Quinn, of Memphis, in which he gives his views on this subject and in which he tells of the very beautiful surroundings in which the hospital is located. His letter, dated Paris, Oct. 4, follows:

"Dear Mr. Quinn—Your son, Capt. James Quinn, who is at present in the officers' hospital undergoing treatment for wounds received July 18, called to see myself and other Memphis men of hase hospital No. 57. He looks well and is a very interesting and fluent speaker, relating some of his experiences in the most interesting way. As he looks so well, I suppose he will soon be dismissed from the New York Heraid published in Paris Oct. 4 I inclose a clipping which will doubtless prove of interest to yourself and to the captain's friends.

"We are located in Paris in a magnificent building amidst the most beautiful surroundings probably in the city.
We are very busy at present, and every one in the organization is enjoying good health and intensely interested in the work they are doing.

"I congratulate you on having two
such sons in active service. We are
proud of the records they have made.
The American boys are giving good
account of themselves on this side,
and I do not think it will be very

"Spokes"and the Swift "Wheel"

What would you consumers think of a wheel without spokes?

What would you think of a man who would take any or all of the spokes out of a wheel to make it run better?

Swift & Company's business of getting fresh meat to you is a wheel, of which the packing plant is only the hub. Retail dealers are the rim-and Swift & Company Branch Houses are the spokes.

The hub wouldn't do the wheel much good and you wouldn't have much use for hub or rim if it weren't for the spokes that fit them all together to make a wheel of it.

Swift & Company Branch Houses are placed, after thorough investigation, in centers where they can be successfully operated and do the most good for the most people at the least possible cost.

Each "spoke" is in charge of a man who knows that he is there to keep you supplied at all times with meat, sweet and fresh; and who knows that if he doesn't do it, his competitor will.

How much good would the hub and the rim of the Swift "wheel" do you if the spokes

were done away with? Swift & Company,
